- G. RELATED ACTS AND REGULATIONS
- H. RELATED COLLECTIVE AGREEMENTS

A. PURPOSE

All records created or received by employees of Douglas College (the College) in the course of their duties are the property of the College and subject to its overall control. The purpose of this policy is to ensure the effective management of the College's records by specifying the rules and obligations that govern recordkeeping across the College.

B. SCOPE

This policy applies to all College employees in their handling of College Records in all formats (physical or digital) including electronic documents, emails, data held in databases or on tape or disk, maps, plans, photographs and video recordings and microforms. This policy does not apply to sensitivity classifications used on College data under the Information Security policy.

C. DEFINITIONS

Archival Record: A Record that has been appraised as having continuing historical value, either for business or research. Archival Records are selected for permanent retention following their business life-cycle.

Record(s): Information created, received and maintained as evidence and as asset(s) by an organization or person, in pursuit of legal obligations or the transaction of business.

Records Management: The field of management responsible for efficient and systematic control of the creation, receipt, maintenance, use and disposition of Records, including the processes for capturing and maintaining evidence of any information about business activities and transactions in the form of Records.

Retention Schedule: A timetable that defines how long Records must be kept and provides disposition guidelines for how Records should be discarded or transferred to an archive.

Transitory Record: Information of temporary usefulness needed only for a limited period of time in order to complete a routine action or prepare a final Record required for financial, legal, audit or statutory purposes and thus not filed in the recordkeeping system. It can exist in any format or medium (paper or digital) and can be created and shared using a variety of technologies (e.g. social media, Teams, SharePoint, wikis).

2. Records destruction must be authorized by the Responsible Administrator in accordance with the Douglas College Record Series and Retention Schedule and related procedures.
3. The Manager, Records and Information Management is responsible for the Douglas College Record Series and Retention Schedule. Changes to the schedule must be authorized by the Manager, Records and Information Management and the Dean or Director of the relevant academic program or service area.
4. Individual employees are authorized to destroy Transitory Records outside of the regular Records destruction process; however, no Records subject to a freedom of information (FOI) request or litigation search request may be destroyed, even if the Record is Transitory or are eligible for destruction according to the Douglas College Record Series and Retention Schedule.
5. Employees transferring physical Records to offsite storage must use approved Records Storage facilities and services, as per the Records and Information Management Paper Records Storage Standard Operating Procedure.
6. Employees must work with the Manager, Records and Information Management to ensure that all Records eligible to be transferred to the Douglas College Archives are so transferred as per the Record Series and Retention Schedule.

E. PROCEDURES

See Record Series and Retention Schedule for guidelines governing classification, retention and disposition of College Records.

For guidelines governing the lifecycle management of College Records, see the following Standard Operating Procedure(s) (for internal users)

- Records and Information Management Paper Records Storage
- Records and Information Management Records Destruction

F. SUPPORTING FORMS, DOCUMENTS, WEBSITES, RELATED POLICIES

Administration Policies

- Archives
- College Use of Copyrighted Works
- Commercialization of Intellectual Property
- Information Security
- Privacy
