M: Course Objectives / Learning Outcomes

The learning outcomes are based on the Curriculum Guide 2001 Education of Certified Dental Assistants in British Columbia developed for the Ministry of Advanced Education, Training and Technology and the Centre for Curriculum, Transfer and Technology, February 2001.

Upon successful completion of CHDA 1360 the student will be able to:

- 1. manage patient records
- 2. observe the dentition, intra-oral soft tissues, periodontium and occlusion
- 3. provide dental health education
- 4. polish clinical crowns

**R:** Prior Learning Assessment and Recognition: specify whether course is open for PLAR

No
