Q: Means of Assessment

A mastery model of on-going evaluation will be used. A student will have completed the course when he/she has demonstrated through satisfactory completion of exercises and assignments that the course objectives have been achieved. Where formal tests are used mastery will be defined as a score of 80% or more.

Progress will be monitored on a regular basis by the instructor in consultation with each student. The student will be expected to maintain regular attendance and progress, actively participate in all lab instructed activities, and completes all assignments as directed

R: Prior Learning Assessment and Recognition: specify whether course is open for PLAR
