Major Concepts: *global ideas that guide the design and delivery of the course*

The following global ideas guide the design and delivery of the course:

1. Recognizing and appreciating the challenges to mind, body and spirit, and awareness of the growing impact of aging on health and well-being are essential to sound gerontological practice. Awareness of the growing impact of health promotion is essential to sound gerontological practice. Practitioners must adapt communication style to work effectively with older people.

2. Recognizing and appreciating diversity is fundamental to effective practice with older people and their families.

3. The psychosocial and physical environment is integral to the well-being of older people. 4. The enhancement of the older person's psychosocial and physical environment is integral to the well-being of older people.

Evaluation:

Selection of evaluation and assessment tools for this course will be based on:

1. The course content and learning objectives
2. The course format and delivery mode
3. The course length and schedule
4. The course level and audience
5. The course goals and outcomes
6. The course resources and materials
7. The course evaluation and assessment tools
8. The course evaluation and assessment tools

3.3 A developmental approach to evaluation that is sequenced and progressive, a teaching and learning tool for both students and instructors.

4. Evaluation used as
