Q: Means of Assessment

Course evaluation is consistent with Douglas College Curriculum Development and Approval Policy. An evaluation schedule is presented at the beginning of the course. Respect for individual choice and an openness to negotiation guide decisions about methods of evaluation.

An appraisal form is used that encompasses the five domains of nursing practice (health and healing teaching/learning, decision making for nursing practice, professional responsibility, collaborative leadership), competencies, and quality indicators. Quality indicators incorporate the minimal semester requirements and address what participants should know, be, and do by the end of the semester. Nursing practice congruent with the quality indicators is an essential component of successful completion of this course.

This is a mastery course.
