M: Course Objectives/Learning Outcomes [Ends-in-View]

In this course, participants have opportunities to:

- explore concepts such as influence, power, change, health policy strategies, funding and resources allocation, and citizen participation
- engage in a project designed to bring about change on a specific health or nursing practice issue

N: Course Content [Overview]

In Nursing Practice VII, the professional practice of influencing change is emphasized. This course includes nursing practice experience and praxis seminars. Participants are involved in influencing change. Nursing practice experience involves work with families, groups and communities and/or populations.

In praxis seminars, participants address concepts from semester courses, such as:

- developing leadership
- using research as basis for practice
- critique on practice
- critical reflection
- evidence-based practice
- societal health
- •
