	This distance learning course facilitates the exploration of the self concept of the individual student as a psychiatric nurse. It examines the role and practice within a broad historical, developmental and current context of psychiatric nursing as practised in a changing mental health care system. The opportunity to analyze similarities and differences in nursing models and concepts and apply to individual student psychiatric nursing practices is provided.

M: Course Objectives/Learning Outcomes:

The student will

- 1. analyze selected nursing theories and concepts.
- 2. identify components of theory and concepts that are applicable to psychiatric nursing practice.
- 3. apply theory and concepts to contexts where psychiatric nursing is practised.
- 4. analyze the psychiatric nursing professional role in relationship to other discipline providing mental health services.
- 5. examine the role of nursing theory in the development of professional identity.
- 6. relate own professional identity to nursing theory and concepts.

N: Course Content:

- 1. Selected nursing theories and concepts
 - 1.1 evolution of psychiatric nursing
 - 1.2 theory development in nursing
 - 1.3 selected nursing models and concepts
- 2. Contexts of practice
 - 2.1 service delivery systems affecting psychiatric nursing practice
 - 2.2 psychiatric nursing practice settings
 - 2.3 trends in service delivery system, agents and recipients
- 3. Mental health professional disciplines
 - 3.1 domain, scope
 - 3.2 relationship to the practice of psychiatric nursing
- 4. Professional identity and nursing theory
 - 4.1 professional identity
 - 4.2 role of nursing theory
 - 4.3 relationship to individual psychiatric practitioner's professional identity

O: Methods of Instruction:

- 1. Self-study Print Materials
- 2. Reading Assignments
- 3. Tutor Assistance
- 4. Teleconference

Q:	Means of Assessment:							
	Evidence of learning is demonstrated through:							
	(a) application of concepts to self;(b) application of concepts to clinical practice or field work; and(c) application of concepts to others.							
	The selection of evaluation tools for this course is based on:							
	1. Adherence to college evaluation policy regarding number and weighting of evaluations, for example a course of three credits or more should have at least five separate evaluations.							
	2. A developmental approach to evaluation that is sequenced and progressive.							
	3. Evaluation is used as a teaching tool for both students and instructors.							
	4. Commitment to student participation in evaluation through such processes as self and peer evaluation, and program/instructor evaluation.
